JUNE HOLIDAY PROGRAMME

Issued on: June 2010

A memorable learning
of different cultures
in Singapore!

Week 1

Cultural Burst

It was truly an unforgettable experience for both the children and teachers. With careful thinking and planning, we used materials found from the streets of Little India, Kampong Glam and Chinatown to allow children to work on a series of cultural hands-on activities.

We believe these activities have given students a sense of ownership and pride over their work.

Our children are living in a diverse society, therefore participation in the various cultural activities empowers them to appreciate and understand the background and heritage of each ethnic group they interact with daily.

"Using red for
my Chinese
opera mask"

Be the creator of things, express your creativity and recreate healthy meals that are both fun and delicious!

Children explored different ways to create food models and personalized them. In the process of creating, children learnt fun facts about food and their nutritional values.

The end product of this week's programme was an extravagant display of food on a tray through which children were able to exhibit their nutritional meals and personalized art to their family and loved ones. This instilled in them a sense of pride and boosts their self-confidence which would be beneficial for their holistic growth.

"We ended off our week with an exciting McDonald kitchen tour! To know how good it is, you have to find it out from the kids!"

Nutritional facts from the cereal box"

Week 4 K.F.C

(KIDS FOR CHARACTER)

**"I TRIUMPHED!
Against all odds!!"**

Time for some exciting moments!

We got our kids out of the classroom and into Bedok Reservoir Park, where they unleashed their "inner Tarzan" by swinging through trees five meters above ground level!

The aerial course includes ladders, bridges, nets, trapezes and zip lines. It challenged the children to move beyond their personal fears and comfort zone. Each step encompasses a child's decision to face the uncertainties they have within them. We definitely had a great time spurring and encouraging each other to keep moving forward despite all the screams we could hear.

We have taken some snapshots of those courageous and memorable moments. So enjoy and have fun talking about it!

"You can teach a student a lesson for a day; but if you can teach him to learn by creating curiosity, he will continue the learning process as long as he lives."

Clay P. Bedford
